

## HEAD COACH KYLE SHANAHAN

KYLE SHANAHAN: It was a really tough win. By no means is everything perfect, but I just thought the grit of the guys in all three phases, just they never wavered. They stayed locked in, kept the focus, never freaked out once the bad thing happened, and found a way to get it done at the end.

Q. You gave the game ball to Evans. On that touchdown drive, how much of that in a game like this is a reason you get a guy like Evans?

KYLE SHANAHAN: That's exactly it. That was the one drive that got us going. It was 12 plays or something. We had to overcome a few penalties. I don't know if there was a sack, but we were not in good down and distance on a number of them. I think it was just penalties. Mike and Brock to be able to get us back, there were some explosives, to be able to get in the end zone was huge. That's exactly why he's here.

Q. On the play of the defense.

KYLE SHANAHAN: The D was unbelievable today. To get us those four turnovers. That was the difference between winning and losing today to get the points off of turnovers. I thought they limited their explosives, defended the run well, overcome losing Greenlaw early, which losing a great player and just emotionally our team feels him, for our guys not to waver at all. Dugger did a great job stepping it up as well as the rest of the guys on the field. So it was huge.

Q. On the first half fumble.

KYLE SHANAHAN: I just saw the ball come out. I'm not exactly sure how he got it done. I was so upset that we lost a yard on the third down the play before. We were right at the break of where we could kick a field goal. Then we lost it and just put us out of that. I was so upset about that. It quickly ended up being the best thing that happened because you don't see that much. To make a play there on the 1 (yard-line) and get a seven before the half was huge.

Q. What did you think of Brock?

KYLE SHANAHAN: I thought Brock did an unbelievable job of finding a way to win it there at the end. That's one of the best defenses in the league. One of the best defenses over the last few years. There were some ups and downs, and he was by no means perfect. There was a lot of times when something wasn't there and he made some plays. Helluva game by Brock.

Q. Do you think Dre should have been thrown out there? Do you have a problem with that decision?

KYLE SHANAHAN: No, not at all. I didn't totally see it. I was told. That's how it is. You're going to get baited big time, especially when you're on their bench. They told me he head-butted

a guy without a helmet. If that's exactly what happened, then we've got to be a lot smarter than that. Can't do that.

Q. What was the message for the team?

KYLE SHANAHAN: No, we just celebrated there. We'll clean that stuff up tomorrow. He knows he's got to be smart.

Q. Talking about the game here in January, how much was that on your mind now? Do you feel like that was a moment you needed to get past?

KYLE SHANAHAN: Not really. It's a different year. You always think about stuff last time you played somebody and things like that, but that was just a rough way to end last year. Your season's over after that, so you can't do anything about it. You spend all offseason trying to build your team back and get your team going. That was the last time we played them. It's a totally different year for both teams. We beat them the first time we played them last year when we came up here, and then we lost the next two. It's a long season. Love how we started. Love how the guys played with grit today. We're definitely seeing them at least one more time. We'll see what happens throughout the rest of the year.

Q. What do you think a performance like this says about the mental makeup of the group?

KYLE SHANAHAN: I think we've got a bunch of warriors. Everyone knows the talent and the stars of some of the guys on our team, but what makes our guys special is how much they love football, how much they give it up every week. I never really have to get our guys going and ask them to work harder. It means as much to them as anybody I've been around. They're sprinkled throughout our whole team. Those guys grind. They're not looking for stats. They're not looking to get the praise. Those guys just want to win, and they wanted to win today big, and they deserved it.

Q. What about the young batch of players you got in Dugger, Romello today, even Mykel? What have you seen from them?

KYLE SHANAHAN: From what I saw watching, it looked like they stepped it up a number of times. Just the guys you mentioned, I saw them make a number of plays today. If that doesn't happen, especially when you lose a guy like Dre, and Dugger starting at base, but having to play that much at nickel with Dre going out. Gracen with losing some of the D-linemen we've had. Mykel with his first game back. It's really hard to win a game in that situation if those guys don't step it up, and they've been stepping up huge.

Q. Guerendo, going from last year to this year, where is he right now?

KYLE SHANAHAN: I think Guerendo's ceiling is very high. He can be a very good corner in this league, and he's showing it. It wasn't just the two picks, but stopping the slant there at the end when they were right in that field goal range area was huge. He's been playing so smart. To get his hand on the ball today, it's what we've seen every day from him since he got back in April and May. For him to keep working and continue for this long already, and I know he's just getting started.

Q. On George Kittle.

KYLE SHANAHAN: Yeah, he got sick last night, got some flu symptoms is all. Loved to battle and get out there and go. You can ask him how much it affected him, but I think you guys know how it is. He felt like shit today, but did a helluva job getting out there and getting ready for the game and helping us win.

Q. Any idea what the prognosis is with Deebo's hamstring injury?

KYLE SHANAHAN: No, don't know yet.

Q. When Evans -- you've got a guy like Mike Evans and maybe you know certain coverages, do you feel like just get it to him at some point and he's going to make a play?

KYLE SHANAHAN: Yeah, that's how most of the plays are. You just can't go there most of the time. There's two people on him a lot. But a lot of the plays have all that stuff built in, and when you get the right looks -- and Brock can recognize it -- he goes there. He did it a lot today. They do a really good job with their coverages, when to take people away and stuff. But every time they didn't, it felt like Brock found it and Mike rewarded him for it.

Q. On the offensive line.

KYLE SHANAHAN: I thought they battled. I thought they did a pretty good job. Always got to see the film and stuff and each play and everything. There was a number of times we had time to throw. That defensive line is really tough to have time to throw against, and I thought we did it a number of times. Of course they beat us on a few. Expected that to happen at times. I loved how they played today. I thought they blocked real well in the run game too.

Q. On the team's punter.

KYLE SHANAHAN: He was unbelievable two weeks in a row. I thought he was huge last week versus Denver, and I thought he was huge this week. We had to play the field position game a ton, and he's probably another guy we could have given the game ball too.

Q. On Malik Mustapha.

KYLE SHANAHAN: Probably the same thing you guys saw. He's a missile out there. Doesn't ever break stride. Goes through people. He's a physical presence out there. I thought he's done a real good job in the pass game too. Malik had a tough injury he's coming back from. He's been doing it each week. He's stayed patient. He got his opportunity today with Sigle being down to play the whole game, and he did what we all expect. Malik's a real good player.

Q. The way that Mike Evans tilts in the impact coverage, is that similar to the impact that Julio Jones had?

KYLE SHANAHAN: Yes.

Q. Any idea when he could come back?

KYLE SHANAHAN: I don't have an update. I'll probably have one for you guys tomorrow, but I don't think he's coming back this week.

## **QB BROCK PURDY**

**Q. Asked you a bunch of different questions about Mike Evans. What is your appreciation, how much does it mean in a game like today when you've got to have it and you can get to him?**

BROCK PURDY: Obviously he's a game changer. True X receiver that, if you give him the right looks and stuff and give him a chance, he can make defenses pay. I thought today he did a great job of that going up and getting the ball multiple times and using his length to create some separation and stuff. As a quarterback, man, any time I have an op to go to him, it always feels good. He came in the clutch for us there at the end, the beginning of the game, the third down conversion, the touchdown. Like he's a baller, man. He's a Hall of Famer obviously.

**Q. What did you think of the second and 21 after the grounding that Mike came up with that play?**

BROCK PURDY: Basically the same thing, once I saw he was one-on-one, I thought we've got to opt to hit him on a go ball here. In that situation, obviously being way behind the chains, I was like here's our one-on-one shot. We've got to capitalize on it. For me, I just gave him a chance. Threw it up back shoulder, and he made the rest happen.

**Q. On the -- when you started that 17-play touchdown drive, you had three healthy wide receivers. I'm not sure George was quite himself today. I know Mike Evans is a nice target, but was there any more of like, hey, this really is my guy on this drive?**

BROCK PURDY: I think the way Kyle called the drive there sort of would answer your question on that, with hey, we've got to get Mike the ball here obviously. But I think the other guys that come in, for me I'm not thinking, oh, shoot, I don't have my starting other two receivers here, I'm not going to think about the next guys in. It has nothing to do with that. I think my antenna is up a little bit, like this play is designed for the X, to get the ball to Mike if it's there, and rip it if it's there. If not, I'm going to get to my outlets and get to my other guys. That's sort of the process and thinking behind it. The fact that Mike just continued to thug it out there with his body and everything that he's going through, man, I just thought that was really encouraging in itself.

**Q. Does that feel like a playoff atmosphere out there? It's not a playoff game, but did it feel like that?**

BROCK PURDY: For sure, this environment, everything that people talk about, it's real here coming in here. They're passionate, they love their team and stuff. For us to come in here, it really does feel like backs against the wall and stuff. At the same time, it feels really cool to hear our 49er crowd right behind us that, when we do make plays and stuff, you can feel them there too. Really cool place to play.

**Q. Do you feel the impact that Mike Evans has on coverages even before the play? If you're on the line of scrimmage and diagnosing what the defense is, can you feel Mike Evans' impact in those moments?**

BROCK PURDY: I think post-snap as I get the ball and drop back and stuff, you can tell if he's going to be double-teamed or not, just with safety help over the top. Some of those big ball -- the plays that we made were because he had one-on-one matchups and they didn't double. I thought we made them pay in that regard. Outside of that, defenses are going to try to do what they do

and scheme up a really good X receiver, especially like Mike. I could feel it as a quarterback for sure.

**Q. Can you manipulate that at all whether he's going to get double covered, put more receivers on the field, anything like that, to make sure he's in single coverage?**

BROCK PURDY: I think Kyle does a good job with making sure we do things to break tendencies and try to get the defense into a certain look. Also how the game's going and the flow if he thinks the other coordinator is going to call something and draw something up for Mike or the other guys. So Kyle does a good job of that. At the end of the day too, for me playing with a receiver like Mike, there's going to be times he's doubled, but still sticking with it and giving him a chance and stuff. It's something I've had to work on too as a quarterback. I don't know, it's obviously great having a guy like Mike so that he brings all that extra stress to the defense and their game plan and stuff. I think it's cool that we still found a way to make them pay today.

**Q. You talked about learning how to continue to throw the ball to him even when he's in double coverage?**

BROCK PURDY: For sure. Obviously being smart enough to throw it up. There's time when he's doubled and still wins. That's just a credit to how crazy of a player he is. For me, like watching film and getting reps together and stuff and building on those kind of looks.

**Q. One of their guys gave you a too small. When you saw that gesture, did that bug you at all?**

BROCK PURDY: What happened?

**Q. Early on they tackled you, and as you were running off, they gave you the too small.**

BROCK PURDY: Yeah, I didn't even know that.

**Q. So it didn't anger or motivate you?**

BROCK PURDY: Absolutely not, no. You've just got to keep playing. It's a four-quarter game. Got to find a way to win.

**Q. Wide receivers often are high maintenance. What is Mike Evans' maintenance?**

BROCK PURDY: That's a great question. He's a dog, that's all I can say. He fights through stuff. He's competitive as heck, and he's going to go out there and obviously give the team every chance for everything that he's got, even if he's going through stuff. We saw that obviously the last couple weeks with him playing sort of injured and even today, and it's early in the season. For a guy like him and where he's at in his career, to keep showing up for the team man and myself and being out there, man, like it's just a testament to his character and who he is. Extremely blessed to have him on our team and excited for the rest of the year together.

**FastScripts Transcript by ASAP Sports**

**OL JAKE BRENDL**

(On what he has to say about how Mike Evans played) “His entire career, he's been a huge target for every quarterback he's played with. As soon as we picked him up here, I was like, ‘Oh my gosh, this is going to be unreal.’ We all know what he's been playing through. The immense pain that he has every single play. He still goes out there and does his very best to get a completion for us. It's fantastic. It's awesome.”

(On if he has a greater appreciation seeing Mike Evans up close) “Yeah. We've played Tampa for a long time, so that's just how we see Tampa. Like, ‘Hey man, we've got to shut down Mike Evans.’ And now he's on our team. It's great to see that.”

(On how much of a challenge facing Seattle was and how challenging the noise made it) “Seattle always does a good job with crowd noise. They're probably the loudest individual team we play. Honestly, it's just great to come in here, handle business, and get a win.”

## **T TRENT WILLIAMS**

(On how it felt playing in Seattle) “It felt like it always does. The [12s] showed up. But shout out to the faithful. [There] was a lot of red in the crowd. The defense chant was pretty loud. But we expected it coming in here.”

(On Mike Evans stepping up with the injuries on the offense) “He's a hell of a player, a champion. It doesn't surprise me.”

(On the young players on defense stepping up) “We have a really young defense, but these guys fly around. We got a young nucleus, a few young players on that side led by Fred [Warner]. That defense is a sneaky good defense. To keep holding that offense to three [points], that's what gave us a chance to win.”

(On if he saw the 49ers defensive line excelling the past couple weeks without Nick Bosa) “I can't say that I saw it coming, but you've seen [Romello Height], you see him coming on, you see how many plays and how close he is to affecting the game every week. That [defensive] line is not a lot of household names so to speak outside of Bosa, but the way they play, they play like their hair is on fire. That's a very special group.”

## **WR BRANDIN COOKS**

(On the play of Mike Evans...) “We signed him to make big plays, and he did exactly that.”

(On the seven-yard touchdown pass from Brock Purdy late in the game, and if he thought the throw was low...) “No, I think Brock looked at that, and actually that's a great pass in my opinion because he doesn't know what's going on from left to right, so his ability to be able to put it where I can go get it where nobody else can, I think that's a great, accurate pass.”

(On the thrill of scoring a go-ahead touchdown for his childhood team...) “It's huge. I'm very thankful and grateful. It's a blessing to be able to be part of this team. I'm looking forward to getting into the film room and cleaning some things up and being better next week.”

(On what he saw from Mike Evans and his two catches on the drive where Cooks scored...) "Mike's just being Mike, playing huge, making big-time plays in pressure situations. No surprise there. He's been doing it forever, and he's doing it at a high level."

(On his impression of the intensity of this rivalry...) "You know, it was fun. You see it from afar over the years, but to be a part of it is different. It's intense. Nothing's easy, nothing gets by easy. It's going to be a four-quarter brawl, and that's exactly what it was."

(On what it's like to be 5-0 with the 49ers...) "Aw, it's huge. It's always been a dream of mine, regardless of the situation. I'm thankful to be here and hopefully will be able to continue to contribute as the season goes on."

## **RB CHRISTIAN MCCAFFREY**

(On Mike Evans) "He's a difference maker. He's a spark, he's everything you'd ever want in a receiver. He's tough. It's really cool when you get new guys that come in and they just continue to up the standard that the [49ers] have built for so long. Glad he's on our team."

(On Mike Evans stepping up when they needed it with offensive injuries) "I think when your number is called in big moments like that, not just Mike but Brock [Purdy], fearless, going down there. Obviously, that's a good team so to stick with it and not get too high, not get too low, and for our offense to continue to just play, that was awesome."

(On being 5-0, 3-0 in the division and what this wins means) "Division wins are big, obviously. For us though, I love our team's mindset because we've been here before. We've been 5-0 and then went into the bye 5-3 so we're more worried about continuing to get better every day. That's what I love about this team. Scoreboard is going to say whatever the scoreboard says, but if we can just continue to capitalize on the things we're doing well and fix our mistakes, we'll see at the end. But that's what I love. I love the mentality of this team, the grit of this team. I'm proud to be a part of it."

## **DL GRACEN HALTON**

(On if creating turnovers was emphasized in meetings this week) "Yeah, no doubt. That's the mindset every week. We have to create turnovers and sacks. That's what we were doing. We have that mindset every week."

(On how special this game will be to him) "It will be really special. Take it all in today, erase it by tomorrow, get right back and get ready, and keep on stacking days."

(On if they can take it to another level with Nick Bosa's return) "No doubt. We have some things to work on, but we just have to keep getting better, keep on stacking days. We have to wrangle the guys; we have some dogs."

## **OL COLTON MCKIVITZ**

(On running the ball...) “No, I don’t think there was anything. We knew in the first quarter that we really wanted to run the ball. We had success in that first drive. We just knew all game that it was going to be there, and eventually it was going to spring for us. It just happened to be on that last play, that last drive we had. And Christian (McCaffrey) comes through some big, hard running. And then Kaelon (Black), we know what he does, and he runs super hard. Obviously, Mike Evans opens it up, and then we get the run ball.”

(On what it’s like to have Mike Evans get 26 yards and 28 yards on the drive that led to them scoring) “It opens it up. When you can have a guy have three catches for 80 yards in the fourth quarter and take over a game like that when we’re down, and we need a guy to step up. I wouldn’t have anyone other than Mike Evans. The tension that he gets and the way that he plays football, it’s our type of ball. To have him out there is special for us.”

(On how major it is to have a 5-0 record with a win over each of their division rivals) “It’s huge. When you can go 3-0 from the start of the year, and you win your NFC games, it sets up a great start to the year. Each week it gets more important. The main thing is that every week we’re 1-0. We’re going to keep sticking with the mindset that it doesn’t matter who plays better the week after (or) the week before. As long as you play your best ball and you get the 1-0, that’s good.

## **WR MIKE EVANS**

(On the team pushing through injuries and him stepping up) “It’s just what I’m here for. Nothing is really promised in this game and if you’re available to play and go out there for your team and try to do your best to help get a win, that’s what I’m going to do. That’s what a lot of guys on this team have been doing, playing through injuries and putting it all out there.”

(On how much he improved with his injuries from last week to this week) “Actually the ribs were way better this week. Way better. Doctors and trainers did a great job this week of managing me and making sure I’m getting better each week.”

(On if he feels like if they get the ball to him, something good is going to happen) “I mean, I do feel like I’m one of the best receivers in the game. Hurt or not, I’m out there. And everybody’s playing through injury. And I’ve got a big frame so if you throw it around me, I’m going to do my best to try and make those contested grabs.”

## **CB RENARDO GREEN**

(On the younger guys making plays on defense) “When you’re out there it’s your time to play. When you’re out there - I don’t care who’s out there - you’re the guy. So it doesn’t matter if you’re an old guy or a young guy, we all are held to the same standard. That’s how the players hold accountability for each other, and that’s how our coaches also push us. So, it doesn’t surprise me that young guys are making plays, we do it all the time in practice. We were doing it in camp, and we were doing it in preseason. No matter who’s out there, we’re all held accountable and to the same standard.”

(On if he knew that turnovers would play a big role in the game) “We didn’t know how many turnovers there would be, but we knew that we were going to get our (opportunities) this game

and it was up to us to capitalize on every (opportunity) we get to win the game. We just didn't know how many."

(On how it feels that the coaching staff believes in him) "John (Lynch), Kyle (Shanahan), and all of our coaches push us hard. I didn't really need anybody to tell me to believe in myself or how good I could be. My confidence comes from myself. But when you got a guy like Kyle with his resume, it just lets you know that I really am one of them ones. I truly believe that. It adds extra motivation, and it gives me more confidence, but I already had confidence before I got here. Nobody had to tell me anything."

## **S MALIK MUSTAPHA**

(On how important is it after what happened with Dre Greenlaw for the defense and team to keep composure) "It's super important, you know the environment like this, you know the 12s, you know Seattle it's all rowdy. It's easy to get distracted with the environment. But as long as we focus with the guys that are around us, the 11 (players) that we step on the field with, it's going to be able to take us, whatever the case may be."

(On what this game meant to them) "We knew the bad taste we had from last season. And getting the new guys and everyone that was here from last year, we all knew what the game meant to us. And we didn't treat it like we had to play like superstars, we just were detailed in our assignments, and our identity in football, and that's what got us our W today."

(On what was said at halftime) "Yeah, we knew next man up. Now step up. It doesn't change our mission and our goal. So, we know what it's like on one end of our defense, but at the end of the day we're all bought in. And whoever is out there is out there, doesn't matter if you're a backup, whatever you are on the field, (if) you're a starter, just get out there and do your assignment, and try not to be a weak link. Everyone's bought in, everyone's rallying, and no one's missing stuff."

## **DL KEION WHITE**

(On the young guys stepping up today) "We got the utmost confidence. (Defense) has been going crazy. Seabass (Sebastian Valdez), he's been really stepping up big, making the most of his moment. Yeah, Dugg (Jaden Dugger) is a great player in this league. Shout out to John (Lynch) for drafting the really good young guys. And shout out to them for stepping up."

(On Gracen Halton's celebration) "He's having a good time. He's high energy like that. And we just love him being himself."

(On what it means to have Mike Evans stepping up) "Mike's (Evans) been doing it his whole career. I'm not even surprised at this point; he's just doing it now for a different team. Shout out to Mike."

## **LB FRED WARNER**

(On thoughts regarding defensive plays today) “Just really stepping up honestly, not allowing the moment to be too big, just really hunker down, making the plays when they are there. Talking about Gracen making that play before the half, obviously Dugger coming in having to play a lot of minutes unexpectedly, and you know I could go on and on but it’s been amazing to see just us continue to fight and battle and grow every single week through the chaos of it all, and obviously happy with the result”

(On previous chaos comment, referencing a lot of turnovers and back and fourth) “Yeah, that’s what we expected though, honestly, it was going to be a heavy weight bout. Seattle, they’re the guys that won it all last year and they’re the ones you have to go through. We understand the problem that they present especially with their defense and how good they are. You know the turnovers back and forth, those were a big part of the game, and we at the end of the day, we made the ones that counted at the end.”

(On Greenlaw being ejected) “Of course in the moment I’m mad that I’m not closer to try and help him out. I tried to get there as fast as I could, I was too far away. He’s helpless in that situation, he’s all by himself on their sideline, and of course they are trying to gang up on him, and you know good on them for bating him into doing something, right. But we know we have to be smart in all those situations and I thought Dre tried for the most part but it’s just an unfortunate situation.”

# GAMEDAY QUOTES

## HEAD COACH MIKE MACDONALD

MIKE MACDONALD: Preemptive strike on the injuries. I think as of now, no update except for Drake (Thomas). He had an ankle, but he finished the game. So I don't know, we're disappointed. I think our guys played hard. We stuck together. I think we got a tough team. I think we're a connected team. But in terms of playing complementary football the way that we want to play here as Seahawks and become the team that we want to become, we're not there yet. So the good news is we have a game in four days that we can move forward and learn from and try to grow from, so that's the good news, but we need to grow quickly in terms of complementary football. Definitely taking care of the football. Way too many giveaways at this point in the season. We'll look at those and see how we can get it fixed moving forward. Guys played incredibly hard, but the complementary piece of what we want to become right now is not there. We didn't do it, and the 49ers did that today. Give them credit. They played a good game, and we'll move forward.

### **Q. What was your opinion of the final offensive play?**

MIKE MACDONALD: I don't know. They said he was short, so got to live with it.

### **Q. When you have a quarterback (indiscernible), what are you telling him on the sideline? What is Coach (Brian) Fleury telling him to keep him unphased to maintain the standard that he usually maintains?**

MIKE MACDONALD: We don't want to throw interceptions, so stay positive, stick to it, trust your reads, take care of the ball. We obviously don't want to throw the picks, and we need to find ways to start games a little faster on offense, but, Sam (Darnold) also did a lot of great things today extending plays. You don't want to take that away from him either.

### **Q. Can you walk us through the end of the second quarter, the fumble in the end zone? Run the stretch. They had three time-outs. What are you thinking there, and is there any lesson you learned in that?**

MIKE MACDONALD: We should be able to execute run plays. We want to stay aggressive. I mean, he kicks the touchback; we're two plays away from the field goal range, and we're in good shape. We want to stay aggressive and get points at the end of the half, (with) the opportunity to get the ball coming out of the second half. But we've got to be able to execute our run game and hold onto the football, straight up.

### **Q. Byron Murphy II had the two sacks on a quarterback that hasn't been sacked all year. The run stop at the end, what were you thinking?**

MIKE MACDONALD: You felt Murph (Byron Murphy II) today. Happy for him. I think there's some good stuff, rush and coverage on defense that we did, and there are some things that we need to improve on as well. Like we talked about all week, their quarterback is a really good player. He saw a lot of plays off schedule today. Just a tough guy to get on the ground. He has a

sixth sense on knowing where everybody is at. That's something that we want to obviously improve on, but Murph played a really good game.

**Q. Mike Evans, just great individual plays by him?**

MIKE MACDONALD: Yeah, great individual plays by him.

**Q. George Holani had a couple of fumbles today. Jadarian Price, there was a point where he came out after the fumble. Was there any thought or was there a different perspective after the Washington game in terms of how to handle that?**

MIKE MACDONALD: No. We're short on backs? I can't go out there and carry the ball, nor do we want to.

**Q. You haven't looked at the film, but Ty Okada came back. What did you think of his day?**

MIKE MACDONALD: Good day to have Ty (Okada) back. Felt like we were on point. I've got to watch it so see how Ty played, but I felt like he did some good things.

**Q. What's your early read on Charbonnet, whether or not he'll play Thursday?**

MIKE MACDONALD: As of right now, the plan right now isn't for sure for him to play, so that could change, but as of right now, he's not going to play.

**Q. What about Nehemiah Pritchett with the fumble and the interception?**

MIKE MACDONALD: Nehemiah (Pritchett) played a great game, man. Probably the best play was the special teams play. Guy's playing double duty as a gunner and as a corner for us. The guy should be really proud of himself (and) the position he's put himself in. He's playing really good football.

**Q. How have you seen his game grow this year?**

MIKE MACDONALD: He's earned a role on our defense. The third corner spot was going to be something that needed to be competed for throughout the offseason, and he didn't shy away from it and came every day and did a great job and just stuck to the process and kept making plays. He's earned a role for us, which is great for him, and it's good for us.

**Q. You've been here before with your quarterback and the turnovers last year. What turned the corner offensively? Was there anything you could revisit from last year that worked?**

MIKE MACDONALD: We're not panicking or anything like that. We're just going through what we do every day. I think if we become more efficient and more effective as an offense, that's going to help our quarterback too. I think it's everybody. It's not just Sam (Darnold). Sam knows. It's not like he wants to turn it over. We need to just play collectively more efficient. I think when that happens, then the ball doesn't become in jeopardy as much.

**Q. On the play where (Dre) Greenlaw was ejected, did you think maybe another penalty could have been called there or...**

MIKE MACDONALD: Well, that was crazy. I don't know. I actually am proud of our guys. You talk about chasing edges. I thought we played to the line today, and then they took care of it,

given all the things that were going on. EJ (Ernest Jones IV) is okay, and whatever happened, happened. But what was the other penalty I ever implied? On us?

**Q. The second flag on Nehemiah, what happened on the sideline.**

MIKE MACDONALD: I'm not sure. I don't know how that works. I just heard that he head-butted the guy.

**Q. You mentioned for him to be the first guy there and kind of have Sam's back, but then not retaliate when he was head-butted...**

MIKE MACDONALD: I think that speaks for our whole team. EJ led the charge. I know it was an emotional thing, but we got to stay in the pocket too for us to play our best ball. I thought our guys did a great job, honestly, coming off of last week and understanding how we want to operate. So just shows you, if we put our attention to things, our guys get better, we get it, we attack it. It's one of those things where, yeah, there are things we want to attack, things we want to do better, and let's put our focus on it, and let's do it. There's a laundry list of things we need to get better at. There's no time to waste. Let's get after it.

**Q. They were able to get to Sam for five sacks in this game. What were you seeing as far as what the 49ers were doing that were really causing you guys problems?**

MIKE MACDONALD: It's the same thing. We just got to play better. The rush and coverage, the protection and the routes and the timing of the play, that needs to be better. We can't be in second and long. We can't be in third and long. We have to keep the ball moving forward. We have to make smart decisions with the football. Got to take care of the ball. We've just got to play good football, and right now too frequently early in games we're not doing that.

**Q. What was your message to them in the locker room?**

MIKE MACDONALD: Similar to what I told you guys. We got a tough, connected, great group. We got the capacity to be a really good football team, but right now we're not doing the things to become a great team, so let's go do those things, and let's go through it, let's attack it, and figure out ways to get better, and let's do it in a hurry because we play pretty soon.

**Q. It seemed like your pass rush was impactful for most of the game. In the fourth quarter it seemed like it wasn't as impactful. Do you share that observation, and if so, is it a fatigue thing, or is there any other factor?**

MIKE MACDONALD: I'm not sure. You've got to give them credit. I think they got the solutions. I thought their quarterback made some plays. Probably better answer for you tomorrow, but you're probably right. I thought our rush early in the game was effective, and they were able to throw it a little bit there in the fourth quarter.

**Q. Going back to Mike Evans, was there any thought of approaching him a little bit differently after they featured him there at the end? What were those conversations on the sideline? Like covering him up any differently. It seemed like (Josh) Jobe was kind of on an island.**

MIKE MACDONALD: No. the guy is a great receiver. We're trying to cover him.

## **QB SAM DARNOLD**

SAM DARNOLD: Got to be better in a lot of ways offensively. Obviously can't turn the ball over. Got to be better on first and second down. Got to stay in the manageable down in distances. If we as an offense, if we clean that up and I got to continue to take care of the football, but if we continue to do that, we'll be all right.

**Q. A lot of people would look at a throw and whether it's in the right place or not. For you, when you look at the process and the decisions that you are making, are there things there that you are noticing that you are going to --**

SAM DARNOLD: There's a couple of decisions that I would like back, but again, I think just putting the ball in a better place, you know, and Elijah, the second one that I threw, just being able to kind of throw that over the top and let him go get it. I think the other one is just poor decision. Just got to continue to trust myself, trust my feet, trust what I'm seeing, which I'm doing. But, yeah, just got to be better taking care of the football.

**Q. The interceptions, were there things you saw before you threw the ball that you expected to happen that maybe they didn't happen where things were covered that they were doing overall that were different than what you expected?**

SAM DARNOLD: No. You have to tip your cap to those guys. They played a good game. Just, again, those are all things that I can control. Just can't be putting the ball in jeopardy like that.

**Q. On the sacks, was it more rush or coverages?**

SAM DARNOLD: I don't know. I got to look at the tape for that one, but you know, again, like I said, they did a good job rushing and covering some of our concepts. You know, got to tip your cap to a good defense, and obviously a good coach in Raheem over there.

**Q. I don't know where you were after the hit out of bounds and all that scrum, but I'm guessing you're not surprised that Ernest was one of the first guys to get there to have your back.**

SAM DARNOLD: Yeah, that was just craziness on the sideline. Then I actually saw firsthand Dre head-butt EJ there. Yeah, it's not a surprise. I know those guys got my back, and I got theirs. It's just how we roll as a team.

**Q. The sequence at the end of the half, how shocking was that for you?**

SAM DARNOLD: Obviously not what you wanted to happen. It's just we wanted to run the ball knowing that they had three time-outs. Again, we just got to be better, and we got to be better taking care of the football.

**Q. What was your view of the final play -- or your final play?**

SAM DARNOLD: They did a good job covering downfield really. You know, Coop had a little bit of separation. If I didn't have to move in the pocket, I could have gotten him the ball a little bit sooner where he would have had a little bit more grass to get that first down. You know, again, I got to watch the tape to really tell you, but what I saw was them covering our guys, and Coop was really the only guy. I felt like he had an all right chance if he broke that tackle, which he did, to get the first down.

**Q. The offense hasn't really had a clean game the last three games. Is that showing up in practice, or is it a surprise when you get to game day?**

SAM DARNOLD: We're practicing well. We got a lot of guys that love the process. They love coming in every day to work. We all feel that way, but again, you know, it's got to translate. There's got to be a sense of urgency to make what we do on practice translate to the field. I know it will, but again, we got to have a little bit of a sense of urgency here to continue to get better, especially on a short week headed to do a really tough place to play.

**Q. Back to your second interception, after he sticks that, are you expecting a little flatter route so you can stab it on him? Was there any kind of maybe not on the same page part of that?**

SAM DARNOLD: No, we had talked about that route. We talked a lot throughout the week about taking it high, no matter what the coverage was. That was the coaching point. So I knew he was going to do that, and I just -- I got to put more air under it and let him go try to get it. Again, just have it be an us or nobody ball. I think that's the main thing there is, like, I chance to put it over the top for Elijah to make the catch or for it to be incomplete. For me to put in harm's way like that, you know, that's not the way to go out there and play winning football.

**Q. Jax had another 100 yard game and a touchdown, but he is in here beating himself up over the one he didn't get. Tell us about him.**

SAM DARNOLD: Jax is that kind of guy. He's a perfectionist. I think we all are, but him especially. He's always going to beat himself up over the one thing that he didn't do well versus the 10 things that he did do well. Again, that's just kind of the guy he is. We'll keep lifting him up as the week goes on.

**Q. Quarterbacks have interceptions coming in bunches at times, everybody. When that has happened to you in the past, are there things mentally, mechanically, physically do you to sort of work yourself out of it?**

SAM DARNOLD: No, I think I just continue to trust my feet, trust my eyes, and make good decisions.

**Q. A year ago you guys were 3-2 in the at-home loss to the 49ers. Was there talk in the locker room, Hey, we've been exactly right here? Then what substantive thing happened then that you say, Hey, just kind of do some of that?**

SAM DARNOLD: Not really, to be honest. There was no talk of that. I think a lot of guys are just pissed about not winning the game. Again, it's a whole different year. We're not in the business of comparing this year to last year. There's a lot of things that we need to get better at, plain and simple. We got to have a sense of urgency to do that.

**Q. Besides pissed, what's the tenor of the team in there in there? What do you notice about this group right now?**

SAM DARNOLD: I think we got a lot of guys that are eager to get back to work. We're just going to put our head down, especially, like I said, on a short week. Got to put our heads down and get back to work and get ready for this game on Thursday.

**FastScripts Transcript by ASAP Sports**

## **S TY OKADA**

(On being back on the field) "This group of guys are so special and to be able to get back out there with them and ride with my guys, it was really special. Upset, frustrating, wish we could've come away with the (win) on that."

(On how Mike Evans changes the equation for the 49ers) "Just a very good player. Always have to be aware of where he's at. We'll watch the tape and we'll get better from it."

(On what they take away from this game) "It's another learning opportunity for us. It's a lesson. For us, I know this group of guys, we're going to come back even better for it. For us, I think mainly this game, honing in on the small details when it's those critical downs. Having a heightened awareness of how they're trying to operate and executing in those moments will be big time for us. We'll learn from it and continue to grow in that facet."

## **LB DERICK HALL**

(On the loss) "Ready to go back to work. That's the good thing about us this week, we have a game on Thursday. The guys are process oriented. We're ready to get back to work. Obviously, look at the tape, see where we can grow, see what we can do better, and that's a lot, obviously. Just trying to learn those things and get ready to move forward, toward Thursday because we have a big one in Denver."

(On the good aspects to take away from the defensive performance) "We just have to keep pounding. We just have to keep going no matter the circumstance, no matter the situation. I feel like we did some things well, but obviously there are areas that we've got to clean up. You acknowledge the things you did well, but you also hound on the things that you have to grow and get better at. Like I said, we'll do that and keep moving forward and just try to be that much better than we were today."

(On if it helps having another game so soon to help move on from the loss) "I think it's a tale of two sides. You have to process and flush this pretty quick because you do have that game coming up but also being able to learn from this. I'm a guy that always likes a quick turnaround. Obviously, there's never a good time to lose but if it turns out sour, you have an opportunity to get that taste off your mouth pretty quick so I'm looking forward to it."

## **RB EMANUEL WILSON**

(On what they can do in practice to work on ball security) "When we have our individual period time, having guys punch at the ball. Everybody really. I'm going to talk to the scout team defense and ask them to punch at the ball a bit more."

(On having the focus to gain yards and protect the ball) "Ball security, and keeping your legs moving

## **CB DEVON WITHERSPOON**

(On how the team played defensively) “I think we played pretty good. I think we executed when we needed to. We gave up a few plays in the red zone. We just have to be better at that. We’ve been preaching that all year, and we’ve just got to be better in the red zone. I think we played pretty good, but it wasn’t to our standard. We’ve got to be better.”

(On if the start of the season is up to their standard they set before the season) “We’re not about what we did last year, we’re just trying to take it one game at a time. Ultimately, we want to win all the games, but it’s the NFL, and we understand that no matter how hard you try, it’s hard to win every Sunday. We’re just going to go back out there and put our best foot forward and go execute our game plan. Ultimately, we need to take care of the ball a little more, but we’ve just got to be better as a team.”

(On how the defense tried to pick up the offense when they turn the ball over) “We coach every day. We attack it and get back in the building. We handle stuff like that in-house. When we get in there, we just let each other know. We’ve established a relationship where we can do that. We can look each other in the eye and tell them they need to be better. No one’s going to bat an eye, and nobody’s going to talk back. They’re like, ‘You’re right. We need to be better.’ That’s just the way we do things around here, and that’s just how we’re going to do it.”

## **LB ERNEST JONES IV**

(On how the team will keep this loss from becoming a problem) “I think for us, you understand in this league wins and losses come. It’s just how you respond. How can we take a loss like this, figure out the reasons and why we lost it? How can it help us later on down the line? It’s nobody’s fault. We could have executed better in the red zone. We’ve been saying that, but we have to get stops. If you turn those touchdowns to three points, you may be looking at a different game.”

(On how much restraint he had after the hit from Dre Greenlaw) “A lot. It is what it is. I don’t think he intentionally did that to my quarterback, but if it was anybody, I’m going to say something. Whatever the case may be, it is what it is, honestly.”

(On how he and the team feel after the loss) “I feel good, honestly. I still feel the same as I did before the season started. Just little things. Little things that turned us into 3-2. We could very well be sitting in the thing, 5-0, just like them, so just little things. We just have to execute better, execute in moments. Hats off to them, they did it today, but we’ll be better.”

## **LB DRAKE THOMAS**

(On a specific play made) “It was a same side toss, and I just saw an opportunity to shoot my shot. Made a decision and it was luckily a good bounce.”

(On overall defensive performance and stats) “I mean we are expected to get stops at the end of the day, so whatever position we are on the field, we got to get off the field. We didn’t win, that’s the main goal so we got to be better”

(On the turn around time between playing games) “With this group of guys and the players we have on this team, the coaches we have on this staff, whatever it is we will be ready to face it head on. I’m not worried about when the next game is or how far out, we will be ready.”

(On being worried about place in the division) “No, it’s just one game at a time, try to get after this next one on Thursday.”

## **WR COOPER KUPP**

(On his reaction to the fourth down play) “I knew it was close. Clearly, it was short. Just not enough there, and we got to find a way to get that fourth down.”

(On what he says to Sam Darnold on the sideline after interceptions to keep his spirits up) “The energy doesn’t change. He does such a great job of being able to traverse all the ups and downs of a football game. We know that he wants those plays back. When things go bad, he is the first person that wants to be the one to fix it. The whole thing is just, let’s get to the sideline, let’s figure what can we do moving forward, find some solutions and go out there and get ready to go for the next drive. The energy, the belief, the trust in Sam is unwavering and there’s just the expectation to go out there and find a way the next time we get the ball.”

(On why the offense struggled today) “Obviously, there’s the turnovers. Even when we did get things going, it seems like every big play was followed up by a negative. One step forward and one step back. We just got to find a way to keep the ball moving forward. Can’t end up in the second and longs. Can’t end up in the third and longs. We can’t end up in third and super long. There is some stuff that fundamentally we can’t do as an offense if you want to be efficient. We’re finding ourselves in those situations too often. And we all have a hand in it. Every single person that’s out there offensively has a hand in making sure we dial in these things and make these plays come to life.”

(On the feeling in the locker room at halftime) “Oh, there’s frustration. Without a doubt, there’s frustration. We were very aware of how good the defense is playing. The fact that up to that point we had given them too short fields that the 49ers did a great job of capitalizing on. And then you gift them seven points there at the end. We just can’t do that. Offensively, we put the defense in a lot of really tough positions. They have bailed us out over and over and over again, and we just can’t do that. We can’t put them in those spots. That’s all there is to it.”

(On whether the defense is expressing their frustration to the offense) “Oh no, that’s not how we operate. That’s never been the belief, that’s never been the culture, that’s anti who we are. The way we operate on a day-to-day basis is the belief in one another. Go out there and do your job to the best of your ability and know that the other side is doing everything they can to figure out their stuff. That’s never been the feeling. That’s never been anything that’s been vocalized or said. We’re a connected team. We’re a very tough, connected team. Because of that have all the belief in the world that we’re going to find a way to get things going the right direction.”

(On whether the stuff that is happening in the games is also happening in practice) “No, I think we’ve had some really good practices and there’s been a lot of stuff that—we’ve had the right energy, the right mindset. Practice has been good and guys coming to work with the right intentions. There’s just a dialing into what happens on game day. There’s going to be some stuff

that we haven't seen. We don't get the crystal ball that's going to tell us what defenses are going to do. There's an expectation. You're given a set of rules and you go out there and problem solve, and the coach has to sit on the sideline and watch those things and we got to solve the problems. We got to find ways to target things the right way. We got to find ways to protect. We got to find ways to distribute the field. Catch the ball and keep things moving forward."

(On comparing to last year, when the team was also 3-2 after 5 games.) "I'm not sure. I'm not big on looking back at last year's stuff. What I will tell you is I have all the confidence, all the belief in the world in the group of men that are in that locker room. The intention that they come to work with, the belief that they have in one another, the way we support one another and play for one another. This is a group of guys that are chomping at the bit to get back to work. We have all the right stuff, we're made up of the right stuff. When you come in with the intention, the mindset, the energy that we have, you've got no option but to move forward."

(On the benefit of playing on Thursday this week) "I'm sure everyone is ready to go."

(On how do teams address turnover issues) "It's always something you emphasize, something you drill, something you work on. Defenses have a say, too. You protect the ball as best you can, and sometimes there's really good plays there made defensively. Other times it's just fix the issue and not make the same mistake twice and you move forward. That's something that you battle through and every team is having that same conversation all the time. They're trying to find ways to limit those things. That's something that certainly is emphasized and will continue to be emphasized and it's on us as players to bring it alive."

## **T ABRAHAM LUCAS**

(On what coach Mike Macdonald said after the game) "We have a great team and a great group of guys. We're ultra-competitive. We don't quit. We strain our (butts) off, up until the very end. I agree with him when he says to us to have a little bit of urgency to take the next step and become the team that we need to be. We're going to get there, I have all the confidence in the world about everybody here and all the guys. It's a tough one to swallow today. Good news is, we play on Thursday, so we get to get back at it."

(On the 49ers defensive line) "They have a hell of a front. They always have. Even with some of their guys injured, they've always had a hell of a front, regardless of whether or not they're playing us. They've always been a great, well-coached defensive front. That's the NFL. It's a challenge in and of itself."

(On how running sideline to sideline helped the flow of the offense) "Our game is a softening process, that's all it is. To the average person watching, it may not seem like there's a lot going on in a first half, but it's like a chess match. You have to put pieces where they lay and then you come into the second half and make your adjustments and you get back after it. That's the game of football. It's not the easiest; it's not just, 'Hey, go make a play.' It's a battle of offense and defense, coordinator versus coordinator, head coach versus head coach. That's all it is."

## **WR JAXON SMITH-NJIGBA**

(opening) “I want to thank our Savior just for the opportunity today. I know that I will learn from this and be better. I know our team will be better after the game. That’s the good we can pull from it. Obviously, not the result that we wanted. I think offense we were just in our way too much. We had the opportunity to go out there and win the game. I have to reel those ones in, and I know that. But we’ll keep pushing forward. Super proud of my team, of course, how we always come out there and fight. The defense, best in the world, they deserved to win the game today. Sucks to let them down.”

(On his feelings after not being able to make the last catch on the final drive) “That’s the one I want. Those are the ones that matter, so definitely would have love to have those back. But I can’t sulk in it. We have a game in four days. Just learn from it, move on, and like I said continue to get better.”

(On whether his jump for the ball was a little out of synch) “Yeah, I guess I was thinking too much at that time. Just needed to play free and catch the ball at the end of the day.”

(On what techniques he learned from that play) “At the end of the day I had a chance to catch the ball. Really, just catch the ball. Catch the damn football at the end of the day. I know I’ll make the next one.”

(On the locker room mood right now) “We’re pissed. We wanted this one. Like I said, defense and special teams, they deserved this win. It sucks. As an offense, myself, I feel like we let them down. But, we’re going to keep pushing. We’re a team that just keeps swinging no matter what, and that’s why I love this team so much.”

(On how to address the turnovers) “We have to stay out of our own way at the end of the day. We spotted them 21 points. Like I said, defense played incredible and it’s on us to protect the ball and move the ball forward. We have to focus on that. I think that coming into that game I think the first quarter and the beginning of the game I think it’s very important to protect, move the ball forward, and stay out of our own way. I think, oh I know, that we’ll get better at that and continue to grow.”

(On the fumbles, how much is technique and how much is mindset) “It’s definitely technique. We preach how to hold on to the football and when to hold on to the football and that’s something is said, and coached, so we have to do a better job at that as players.”

(On what will hold the offense and defense together) “We never feel that from them. It’s honestly a surprise, because I know how much they love to win and care and how vocal they are, but at the end of the day they always have our backs and they let that be known. Time after time again, they come through. We’re a band of brothers. We love each other and we’re going to get better and I know that they trust us to figure it out, and we will.”

(On whether it is harder on offense than it was last year) “I don’t think it’s harder. This is year two for this offense, we got a lot of guys back and I think we’ve seen some improvements. We know how to improve, we know how to adjust. We know each other a little bit more. So, I wouldn’t say that. We just got to keep pushing.”

**PFWA Pool Reporter Brady Henderson Interview with Vice President of Instant Replay Mark Butterworth**  
**San Francisco 49ers at Seattle Seahawks**  
**Sunday, October 11, 2026**

**Question:** Can you tell me what you saw on the replay of the Seahawks' final offensive play?

**Butterworth:** "Because it's the end of the game and really a game-deciding call on the field, we purposely stopped the game to look at the entirety of the play. With all of our available angles, including our boundary line cameras, there was no video evidence to overturn the call on the field. A key thing to remember is we are looking at when the ball breaks from green, the field of play, to white, out of bounds. There was nothing clear and obvious to overturn the call on the field."

**Question:** Can the ball continue to be advanced towards the line to gain when it is out of bounds?

**Butterworth:** "The runner was going from inbounds to out of bounds. So, when that next body part is out of bounds, we're looking at where the ball crosses the sideline."

**Question:** So, in other words, he could be in the air, having not touched out of bounds, and if the ball is practically on the other side of the out of bounds line, can it still be advanced over the line to gain?

**Butterworth:** "No. In your example, if the player is airborne, we are still looking at where the ball breaks from green to white – green meaning the field of play, white meaning out of bounds. It's not where his body part lands out of bounds, it's where the ball breaks the plane from inbounds to out of bounds."

**Question:** So once that happens, then the ball is out of bounds?

**Butterworth:** "Correct."

**Question:** So it's not like the goal line?

**Butterworth:** "The line to gain we treat differently than the goal line. The runner gets goal line extended with a body part in the end zone. For the line to gain, we are looking at where the ball breaks from green to white."

**Question:** Was that confirmed or upheld?

**Butterworth:** "We only have stands or overturned, so we stood with the ruling on the field."

**Question:** On Dre Greenlaw's ejection, what led to it and what was the process of ejecting him?

**Butterworth:** "The clubs passed a rule this year that the AMGC (Art McNally Gameday Central in New York) can actually eject a player even when there is not a flag down on the field for the action. But in this case, there was a flag down on the field. When they went to the sideline, the player in question actually head-butted a non-helmeted player on the sideline. We have a very specific process we go through. (NFL Executive Vice President of Football Operations) Troy Vincent let us know that the player was ejected, so then I communicated with the field to inform them that number 57 was ejected from the game for a non-football act."
