"All right, guys. Only thing we have from the game was Renardo Green left with the back in the second half, didn't return. That's it for now."

On when he felt comfortable with the outcome of the game. He had six touchdowns, but it came down to the last play, essentially.
"Not until it was zero. Yeah, they kept hanging in there. I thought it would've ended a while ago if we didn't make some bad penalties that kept the drives going. I didn't get to see all of them, so I've got to evaluate those later, but I know guys are exhausted finishing the game like that. It's a hell of a game in a lot of ways, but I was just proud of the guys for finishing out."

On the design of the 74-yard touchdown pass to Christian McCaffrey.
"Not that. Christian was unbelievable on it. They actually blitzed, had a guy in the A-gap who got out of there, then had to go to the backside, picked up the blitz from the backside. Then Brock broke out, and I have no idea how Christian was blocking the blitz in the A-gap and ended up where he was. So I'm excited to see it on the plane."

On whether McCaffrey was supposed to run a route.
"No, he was in protection."

On whether the touchdown was an example of overcoming coaching.
"That's an example of the play making the play better than the one we called. It wasn't overcoming coaching because we definitely tell them to block, which he did. But Brock bought a bunch of time, and it's a huge off-schedule, and really cool."

On the final touchdown, the 66-yard touchdown play.
"That was, we just got in the right look. They zeroed on it, and we scattered everyone out. And so just when you do that, then the back gets to run a route on the D-end. And then Christian. It was an awesome throw, good protection, and Christian did the rest."

On the design of Deebo Samuel's 70-yard reverse.
"That was just a reverse. We've been trying—we called it earlier in the game, and we messed something up on it and ended up having a bad play. So we came back to it in the second half and we got the right look. I mean, no one was there when we came around, got him in a good blitz, and it was awesome. I didn't think Trent was going to see the guy at the last second. Trent just punched this guy, just kind of stunned the guy. And then Deebo was Deebo. I mean, I think a lot of people are going to get yards on there, but not many people are going to go all 70, and that's what Deebo does. And I heard Brock got some blocks in the play, too."

On the overall performance of the offense. A lot of big numbers.
"Yeah, a lot of big numbers. So, I mean, definitely happy with the guys and proud of the guys for that. I mean, definitely wasn't as clean as all those numbers and yards. A lot of plays that we'd like to have back, some penalties we'd like to have back, but everybody seemed to make a play on offense. I mean, all the receivers, the tight ends, both running backs, Brock. That defense is a lot better than people realize. Got some problems out there, but I was really proud of the guys."

On the first-half pass protection and running game. Seemed like the first half that you, protection-wise, wasn't as good, and run game also wasn't rolling. Anything at halftime that you adjusted, or was it just a matter of playing better?

"No, just a matter of just continuing to play. I mean, when you look at protections and stuff, I don't know the stats or anything on the sacks or quarterback hits, but some we don't get open fast enough, some protection's not great, some Brock's gotta get rid of, some just aren't good plays. So it was a little bit of everything. It wasn't one theme, but obviously we ended up making more good ones than bad ones."

On Brock Purdy's toughness after taking five sacks and multiple hits.

"I mean, Brock, I mean, it just shows how tough he is. And there were a couple times it seemed like he was hurt and never told me that anything was wrong, so I'm assuming not. But he took some hits in that game, hung in there, kept making big plays, and we all know how tough Brock is and he needed to be that way today."

On whether he expected Keenan Allen to have such a significant role.

"We thought he'd have a chance to. I mean, we involved him in a lot of stuff, and you never know how the coverages are going to go and stuff, but I thought he did a hell of a job. I think he made all the plays that we went to him on, and a couple more that we just missed him on the third down. Just missed the throw a little bit, him going down the middle, and missed him in the red zone on a possible touchdown when we got sacked. But I was real happy with him for his first game."

On how much of the offense Keenan Allen was able to learn before the game.

"No, I mean, we never just said it was just these plays. We knew to be smart with him, but we told him to try to learn everything. He didn't do the two-minute offense and stuff like that, but the stuff in the game plan, he told us he sat down on Saturday and he felt good with all that stuff. So he said his biggest worry was I was going to call something that wasn't in the game plan. So fortunately we avoided that, but he was awesome this week."

Christian was having trouble running the ball in the first half. Was there a sense of frustration?

"Not really. I mean, it was just with all of us. We couldn't get anything going. I didn't think it was because of him. I thought it was just collectively our whole offense, and we had a feeling it'd be like that. It is hit or miss because they do do some good things, but we felt if we could stay out there, we could get some big ones, and then KB had that one amazing run where he trucked the dudes and got the house call. And after he did that, we stayed with him a little bit more, gave him a little bit more after that. But it was awesome. Christian came in, had been in for a little bit, came in, had a huge third down on a pass over the middle, and then he came back and had a bunch of big runs, too. So love how those guys played today."

You mentioned the penalties on the defense. Anything else that you point out that they struggled with today?

"I mean, they had some good receivers. Looks like we struggled to cover them at some times. I know we can do better than that. But I also give a ton of props to Demo and Renardo. Those guys were hurt. They weren't able to practice all week. They got out there on Friday and didn't do any full-speed stuff. It was all walkthrough-type stuff. So for those guys to miss all week and battle and come out and go get some guys like that, I just respect the shit out of them for making it and playing in this game."

On the defensive front and recording only one sack of Dak Prescott.

"Yeah, I'll get a better feel on the plane. I didn't get to see much of it, but it didn't seem like we got there enough, especially at the end when they were coming back and things like that. It seems like we got gassed. I could tell how tired we were just being out there. But it didn't seem like we affected him enough today."

On Brock Purdy blocking during Deebo Samuel's reverse. What's going through your mind when you see him run down the field on the Deebo reverse, when you see that?
"It was good because I wasn't watching him. I was seeing this other guy, and I was seeing if Trent was going to see him, so I took my eyes off of it. But usually our coaching point on that is just get out of the way. It usually doesn't work well but overcome coaching and get a block, as long as you don't get hurt. It's a good job overcoming coaching."

There's a play that looked like Fred punched it out. Did you just not get an angle of a clear recovery? Is that why you didn't challenge that?
"Yeah, we knew it was out. That's why I wanted to throw it. And I thought that we did have it, but then somehow a guy on their team was walking away with the ball. But I thought Mustapha got it. And then they told me guys who were seeing it upstairs, they just couldn't see a clear recovery. So we were afraid we weren't going to get it for that reason."

On whether the final play had been whistled dead. Did you get any explanation on the Cowboys throwing the ball around?
"I didn't because I didn't want to talk to them after the game ended. I wanted to get out of there. But yeah, I thought it ended on a couple of them but I'm not sure."

On Kaelon Black's ball security and the teaching points from his fumble.
"Well, we'll see if we can see it on there. If he was loose with it, if he had his elbow up, if he didn't have his pressure points. From what I saw on the sideline, 92, who's a big man, got his arm in there and just raked it out. So we gotta see how he was holding and stuff. But it was a good play by 92, and glad that we recovered it because that could've been a big one."

On the support from 49ers fans at AT&T Stadium. Your fans always travel well. Was it especially noticeable today?
"It definitely was. It was so cool. We worked the silent cadence all week, which sucks. And then we gave up on it halfway after the first drive. We could tell we didn't need it. And I've been in the stadium a bunch, just coaching in the NFC East for a while and stuff like that. And for us not to have to use the silent cadence at all, I don't think we did on third down, it was really cool. It makes a difference. Our fans are awesome. I wish I could give them all game balls."

On the decision to have Corliss Waitman handle kickoffs.
"We just, he's been doing it well. We've been working on it the last few weeks, and they've been very close at it. He keeps getting better at it, so we wanted to give him a shot, and I thought he did really good at it today. And that was such a big-time punt by him at the end of the game, too. Huge."

Brock Purdy, Quarterback

On how he feels about the game:
"I thought it was sort of a weird game. I felt like we had momentum. Obviously the first half it was competitive and everything, but then I feel like we got momentum in the second half and stuff and then I don't know, just sort of let them obviously get back in it and then felt like we were trying to pull away again at the end. So, a little weird in that regard, but I mean it's the NFL. So, I mean we all sort of understand that all these games can go to the fourth quarter and anybody can win. They've got a good squad on that side, good players and stuff. I'm glad we pulled it out..."

On if he knew Von Miller was matched up on McCaffrey on the second touchdown: "Honestly, no. I think Dee Winters ended up blitzing then I was like, oh, Christian's there. So yeah, great matchup, great playcall by Kyle and it was just a great play in the moment for Christian to see space and feel space and keep his ankle thin. All I had to do was put it on him and let him go to the rest."

On rolling out on McCaffrey's first touchdown:"(I saw him) after I got out of the pocket. I made a scramble play. Our read wasn't there. The defense sort of did a good job in that moment. So got outside the pocket, scrambled around and then last minute Christian just did a good job of knowing he's in protection, but on the scramble drill, still leaking down the field and being a threat and feeling space and sort of just giving me an easy like, "Hey, I'm here." And I'm glad I was able to find him and he made the rest happen."

On if that was a backyard play:
"Yeah, I would say so."

On the first read and design of that play: "I mean, depending on the coverage and stuff, I was trying to go to Keenan Allen there. They had a backer drop back. It was man coverage and the backer dropped back into the window and it just wasn't there. So,I tried to go backside the Deebo. Then at that point I felt like I sort of had to get going, just the timing in my head to go scramble. Then I ended up going back right side and Christian, obviously at that point everyone was on the scramble drill. Christian did a good job. He was in protection at first and then obviously leaked down the field and found some space."

On if he intended to run:
"Yeah. 100%. Obviously, I'm always trying to keep my eyes down the field when I'm scrambling and stuff and seeing if guys can feel me and see me and try to get the space and stuff. But then there's a point where it's like, all right, I think I can try to use my legs now in this moment. I was going to do that, then all of a sudden I just felt Christian pop. So, I stopped and got him the ball and I was probably right up the line of scrimmage. So, it was pretty close."

On the weirdness of the game:
"Yeah. It wasn't a kind of game that you sort of get into a rhythm of, hey, this could be a scramble type game or hey, you're going to drop back and everything's going to be perfect or it's going to be just how Kyle drew it up. I mean, today felt like it was just a football game. You're going to have good plays on rhythm. You're going to have plays where guys are matched up pretty well and you might have to scramble and make a play. Pocket might break down and you got to go make a play. It just felt like a football game. So definitely felt both sides of the spectrum. And like I said before, I'm just glad we stuck together as a team and got it done."

On Keenan Allen:
"Yeah, he's great. I mean, just a true pro. He understands just routes and how he moves within routes. I say that because he does a good job of creating separation. I feel like today in the man coverage moments and stuff, he was able to sort of put some savvy on it and get open, which is really cool for me to see and feel. So, I mean obviously with the limited reps that we got this week, I'm excited to build off this. I was really encouraging going out there and making plays. And so hopefully it just continues to get better."

On why the run game was better in the second half:
"I think just a matter of playing better and executing and stuff across the board. I think Kyle did a good job with still trusting in what our game plan was going into the game and stuff. He didn't shy away from anything and still was like, "Hey, we got to run the ball if we're going to win this game." And obviously when we passed the ball, the blocking was on point, boys up front did the job, do your job and then guys go make plays with the ball. So that was sort of just the message and keeping it simple and allowing the game to present itself."

On how we would rate his run blocking:
"It was pretty good. Yeah, everyone was celebrating and I was like, "Hey Deebo, it was me and Trent." Hopefully there's a sick picture out there. I was pulling with Trent...anyways, I'll be the next Juszczyzk."

Fred Warner, Linebacker

On how he digests a performance in which they gave up 40 points:
"Yeah, no, obviously I got a big ego when it comes to things like that. Obviously, a high standard and expectation for our team and especially our defense. So obviously we got to be better. Great win. We got a win by any fashion. So, there's going to be games where the offense, they carried us today and I'm sure we're going to have to make sure we have our best performance this upcoming week. So we love to learn off of a win and we'll make sure we correct the mistakes we made in this game and be better from it."

On how he is seeing the D line as they get healthy and come together and how they are gelling this last couple of weeks:
"Yeah, I mean they're doing just that. They're gelling. They're out there working hard every single day and trying to put the best product on the field on Sundays. And we just got to continue to work together, rushing coverage to be as dominant as we can be. But I mean, I'll take that group over anybody in the NFL for sure."

On whether there is anything he can point to in terms of the lack of sacks:
"Yeah. I mean, that works in unison, right? It starts with obviously us in coverage, me communicating with the back end and everybody being on the same page, being sticky in coverage to allow time for the D linemen to get home and them obviously winning their rushes when their numbers called. So, something that we're going to continue to look at and try to be better from moving forward."

On whether he was robbed out of a forced fumble:
"It felt clean on the field. We'll see. We'll turn it in. Who knows. But, regardless, it's sad at this point, it doesn't matter. I wanted us to get that ball back because we had just had a huge score starting the second half and then to possibly get a punch out and recover that football and get another score. I mean, that would've been a huge start to the second half. But so many more other opps for me to try to get another one out throughout the game. I just got to keep punching."

On Coach saying he didn't challenge because there was no clear recovery and whether he had a vantage point:
"Yeah, no, I mean I got it out and I thought Renardo was because the ball was kind of by the running back's legs, and Renardo dove in and I thought he had possession of it. But I think since we ultimately at the end of it all didn't have the ball when we stood up -- because the refs were telling us to get up and stop fighting for it -- because they had the ball and I was trying to fight, but I also didn't want to get a penalty for trying to delay the game. So, I think if we had recovered it and had a clear like, oh, if the ball's in our hands and our possession, then I think maybe it would've been a challenging situation."

On the defense being upset in the locker room and if it is good to have that fire going forward:
"Yeah, of course. I mean anytime you get 40 dropped on you, you're going to be upset. I mean that's far from our standard. But you have to go back, you got to look at the tape and see exactly why was that the case. You just got to try

to remove emotion from the equation and look hard at the tape and see exactly, all right, this is where we were at fault on this play. Looking inward first, seeing where could I have been better and everybody kind of looking inward to see where they just had all that's on me and being better together and having an opportunity to correct those things moving forward for this next game."

On what he sees from Brock in terms of toughness today:
"Yeah, he's unbelievable. Unbelievable. Making the throws that he makes, his feel in the pocket and knowing where to go with the football, throwing on the run. He's not here this time, but I promise he's the MVP of our league and he's the best quarterback and I'm glad that he's on our side."

Trent Williams, Offensive Tackle

On how he feels today:
"I feel good. I mean, I always feel good after a win."

On how his shoulder feels:
"Yeah. Yeah. Shoulder's fine."

On the first McCaffrey touchdown, and whether that's how the play was drawn up:
"Honestly, I'm not going to lie. I didn't see it. I hadn't even seen it yet. I had my back turned. I just see Kittle escorting Christian up the field. So it's like, something worked."

On why the offense was able to operate so well today:
"I think we had explosives. We've seen Christian do it a couple times. Deebo with the reverse, KB with the run. I mean, the explosive plays I think allowed us, first it softened them up. Then it allowed us to stay on the field and put up points, and score touchdowns."

On what he thinks is the ceiling, with Mike Evans coming back fairly soon:
"I think we can be as good as we allow ourselves to be. As long as we execute, we play together. We got to cut down on the penalties and shooting ourselves in the foot. But when we execute, I think the sky's the limit for us."

On Kaelon Black:
"KB is just such a hard nose runner, so hard to tackle, so hard to bring down. And then you put Christian in, he literally can do everything. Everything under the sun. Swiss army knife. They are just a heck of a one-two punch. We're super, super blessed to have both of those guys in the stable and they keep this offense rolling."

On Deebo Samuel's reverse touchdown, and how that unfolded:
"Yeah, honestly, I'm just selling run and I just don't know. I was selling run, my defense tackle went away and I looked and I felt like it had to be like nine guys was chasing a run. I knew it was a reverse, so I'm just like, "Hey, let me get out here in space and see if I can find somebody to block." I was improvising at that point. I wasn't supposed to be in the play, so it went fast. I just got out there and tried to get a hand on somebody."

On whether he saw Brock in front of him on that play:
"I did. Actually, me seeing Brock is what made me know that the play was -- Deebo was around and free because obviously if Brock was upfield blocking that means it's a lot of green grass and you're trying to get him to the end zone. So, I just kicked it into gear and just went and found somebody."

Christian McCaffrey, Running Back

On the first touchdowns and what he saw:
"Yeah, it was just some backyard football. Brock did a great job keeping the play alive. Sitting in my gap, I kind of noticed everybody getting flushed out. So I turned around and I still had a route to run, but I kind of just saw some space. And

again, when you have a quarterback that's so good at keeping plays alive sometimes you just get those gimmes and that was one of them."

On if there is a route designed for him if he leaks out:
"Yeah."
On if he remembers what it is:
"Actually on that flat I don't. I kind of just felt the space."

On when he got in open space on the final touchdown, the 66 yarder, whether he knew nobody was around him:
"Yeah. I think they brought pressure and they dropped the D end on me. So that's a perfect look for that play. And again, it was a great job by Brock getting the ball where it needed to be and made it easy for me."

On whether he knew nobody was around him:
"I don't know. You just catch it and run as fast as you can and try to score. I don't overthink it. I was hoping not. You just hope that nobody catches you and you hope that your really fast 4.1 teammates don't catch up to you to celebrate and just make you look slow. So I don't know, I'll have to check the tape and see what happened."

On how impressed he is with Keenan Allen and how he's involved in the offense:
"He did a great job to come here. I'm not shocked though. I think everybody's seen him play throughout his entire career. When you have a vet like that, it's just learning terminology. But style of play is there. Obviously he's had so much success, so he's going to fit right in and only get better. When you have somebody like that out on the field, he's just another weapon on this team. You can just go down the list on our roster and when you get all guys together to play a certain type of way, it makes football really fun. So, adding him is a huge asset."

On what is the ceiling for this offense with Mike Evans coming back soon:
"I don't know. I don't focus on any of that. All I know is we got the right mindset. We got the right group of guys. We have a lot of guys. It's cool because we're a very veteran run offense. We've had a lot of guys who have had a lot of success, but we really love each other. I think that shows in practice, that shows in the game. I think everybody just wants to win no matter how it is. And I think that's what makes it really cool. Guys like Mike, guys like Keenan, we come here and just do your job, do it really well, help the team win however you can and let's see where we can go. But the standard's really high. We got the right guys in the locker room and it's a fun team to be a part of."

On whether he knew it could be a big game for him:
"No, I did not. Yeah, you never know. You go into each game, you don't really predict anything. Again, you just have to have the right mindset that this is the play that's going to break, and trust your instincts and play fast."

On whether there is some sort of eye contact or a magic moment between he and Brock when they say this is going to happen:
"It really is backyard football at that point. I think we've all played it as kids at recess, and drawing up plays on your hand and it never happens. You ever tell a five year old to run a post route and he just runs a corner or something else, but he's open? That was kind of what that was. And again, I think those little decisions that you make in games for Brock to not scramble, not to just surrender the play, but to keep it alive, that's a big deal. So there's no planning that goes into that. It's just him doing a great job playing ball."

Deebo Samuel Sr., Wide Receiver

Pre-game, you had a friend that visited you here today. What does that mean to you to have them?
"No, that was fun. We kind of planned this probably like three weeks ago and they wanted to come out here and we made it happen and they enjoyed it and we got the win."

On the touchdown, just what you were seeing on that play.

"I scored twice." (laughs)

The reverse.
“Oh, the reverse. I talked about this a good bit, but most importantly to me, Brock. I love all my teammates. Trent did a great job. JY did a good job, but to get around and just see Brock laying it on the line for his brother just shows what type of team we have.”

On seeing Trent out there as well, just with one arm....
“Yeah. I mean, I always give all the praise to Trent, all the things that he's been able to do for a long time. And just to get around and just see how fast he's moving to go get a block, he seemed to impress me every week. It's just something different all the time.”

On how he felt about coming out there and really being involved in the offense.
“Kind of a little rusty a little bit. But overall, it was good to get this week back under my belt, getting ready for next week."

On how he was feeling and what was the mindset? During those three weeks where you were out, what was the mindset getting back into this game?
“Mindset was how fast I can get back. The first phase of a torn hamstring and whatnot is getting up with the soreness and gym moving around. DP and Mike did a great job getting me ready and we're here. Both of my game balls, one of them gets the game ball for sure.”

On if he remembers his first touchdown with the screen pass? You had the screen pass touchdown here a couple years ago in the playoffs. Did you think about that at all?
“No. Touchdown here wasn't a screen pass, it was a run.”

Apologies. Well, how cool was the score of that screen?
“It was good for sure.”

On if he had a chance to see Brock blocking for you on the reverse?
“Yeah, he came in a little late. We just talked about it, but Brock did an amazing job for sure.”

George was just talking about all the weapons you guys have, bringing in Keenan, you coming back. Mike's going to come back to some point. What do you think is the ceiling of this offense?
“The ceiling is high as we set it. We got a lot of playmakers on both sides of the ball and we go out there and put up 40 points. It just shows you what we're capable of on offense.”

On if he was impressed about Keenan and how quickly he was able to going?
“Yeah, because as I stated earlier in the week, Kyle's offense is pretty much crazy and for him to come in. They got here Wednesday, practice Wednesday. Monday came in Wednesday, Thursday, Friday, getting ready for this game.

On if he likes the fact that the game was put on your shoulders and the defense has been playing really well and today it wasn't as great of a game?
“I wouldn't say the game was put on my shoulders though. We all played a part in this win.”

George Kittle, Tight End

On the McCaffrey touchdown on 3rd and 8
"I was watching because I thought I was really open and then I saw Christian (McCaffrey), I was like, he's way more open than I am."

On Brock Purdy and McCaffrey making that play work

"I didn't see what happened in the backfield. Somebody told me that Brock did some really cool stuff in the backfield, which he continually does, continuously does. Or continually, I don't know. Anyways, the play that Brock made and then just Christian just staying alive. I would suggest to anybody to cover Christian McCaffrey, that'd be my thing because if you don't cover him, he's just going to score touchdowns. Just seeing 23 just run free is a really fun thing. Green grass is really hard to come by in the NFL. So watching him do that and just kind of have three touchdowns for 230 yards. I'm jealous, but I'm happy that it's Christian because he's the man."

On the offense today
"Both because it's awesome scoring these 60, 70 yard touchdowns. Deebo Samuel's reverse. There's five guys maybe in the NFL who are going to score on that play. The way that he sets up his blockers and then make a guy miss and make another guy miss and then score a touchdown, that's a Deebo play. And they blitz into it it was perfect. Christian doing that stuff. But we had plenty of drives where we weren't very efficient. We didn't convert on third down. And it's great to know that we have players who can score from anywhere. That's what's so fun about our offense is, hey Christian can score from anywhere. Deebo can, Mike Evans can, Keenan Allen probably can, Jordan Watkins can, I can. And we have a lot of guys who can score from wherever you want. And so that makes our offense incredibly dangerous, but we have to stay on the field more. A couple of those third downs were really disappointing just not staying on the field. But I mean overall I think we played really well."

On where he thinks this offense can go
"Oh my gosh. When you add Mike Evans to it, when Mike Evans is on the field and the threat that he poses, I don't get to get covered by corners anymore and that's all Mike Evans. So it makes my life easier, it makes Christian's life easier. Everybody on the field, their live is easier because of how good he is and how much of a threat he is. So I've actually never been more confident in an offense when I look out and I see Mike Evans and he just has a go ball. It's like sick. So I'm excited to get Mike back, hopefully."

On seeing Keenan Allen out there
"I think I said on Thursday, it's like he's a vet, he's been in a bunch of different offenses. He knows what to learn. I think he did a really good job. I don't know if he had any MAs. I think he did a really good job for what we asked of him. I don't know how many plays he played, but hey, he made catches when it counted. So I'm thrilled to have Keenan Allen on my team, especially when you could pair him with Mike Evans, D-Rob, Deebo. So many Ds."

On the blocking at practices
"Oh, I mean, I think the Niners have been known for being a very violent run team and we were not good at running the ball like all of last year. We just weren't efficient. It's really annoying. And so that is something that we tip our cap to is we want to be a really, really good run team. Whether it's efficiency, big plays, whatever it is, we want to be able to count on the run. Because I mean last week we ran the ball 43 times. We want to run the ball on people and then take advantage of people when they pressure and they rush five or six guys and the guys are at one-on-one, that's what we want. So I think we did better today. I don't know what we average in the run game, but it felt like we run the ball really well. I mean the combo of KB and Christian was pretty sick."
